

Construction Method:
Horizontal Directional Drilling

Project: Kimball Creek Pump Station

Location: Snoqualmie Ridge, Washington

Job Scope:

- ❖ Contractor Submittal Review
- ❖ Specialized Construction Management

Project Description:

Staheli Trenchless Consultants provided full-time specialized construction management for 1,000 linear feet of directional drilling beneath the Snoqualmie River just upstream of Snoqualmie Falls. A 16-inch HDPE pipe was pulled from the south side of the river to the north side to increase sewer capacity for development in the area by Quadrant Homes. Construction challenges included aggressive ground conditions and large cobbles. This project was successfully completed in August of 2007.
